TO THE CHAIRMAN AND MEMBERS  
OF THE  
SKELTON & BROTTON URBAN DISTRICT COUNCIL

---

Mr. Chairman, Madam and Gentlemen,

I beg to submit my Annual Report for the year 1961, the contents and arrangements of which are in accordance with Circular 1/54 of the Ministry of Health.

I would like at the outset to record my thanks to the Chairman and members of the Health Committee for their encouragement throughout the year.

To the heads of Departments I am again obliged for their co-operation at all times. To Mr. J. H. Rhodes, whose report follows mine, I owe an especial debt for his unstinted help in all matters concerning the health of the District.

Finally I wish to thank the two clerical officers, Mr. R. K. Nuttall and Miss D. E. Fox, who, working in the Area Health Office, have contributed materially to the smooth conduct of affairs.

I am, Madam and Gentlemen,

Your obedient servant,

T. M. B. ROHAN,

Medical Officer of Health.

18th July, 1963.

## Statistics of the Area

### Population

The Registrar-General's estimate of the population of the district in the mid-year 1961 is 13,200, as compared to an estimate of the population in the mid-year 1960 of 13,140.

### General Statistics

I am indebted to the Financial Officer of the Council for the following figures:—

1. Area of the District in acres	....	....	15,419
2. No. of inhabited houses according to the rate books			4,258
3. Rateable Value	....	....	£88,091
4. Sum represented by a penny rate	....	....	£349

## The General Provision of Health Services in the District

### 1. Laboratory Facilities

This work is now done at the Public Health Laboratory, Middlesbrough, only the biological test for tuberculous milk being carried out at the Public Health Laboratory, Northallerton.

## **2. National Health Service Act, 1946**

With certain exceptions the Guisborough Area Health Sub-Committee of the Health Committee of the County Council exercises the functions of the Local Health Authority in supervising the day to day administration of the services provided under this Act. The Committee met every two months. It is composed of members of the County Council, of the three District Councils of Guisborough, Skelton and Brotton, and Loftus, and of certain co-opted members. Among the services administered are the following:—

Domestic Help Service	Home Nursing
Prevention of illness: Care and After Care	Health Visiting
Ambulance Service	Midwifery
Vaccination and Immunization	Care of Mothers and Young Children.

## **3. Voluntary Care Committee**

I would like to record the work done by this Body for the welfare of persons suffering from Tuberculosis and other illnesses. Enquiries and requests for assistance may be made to the Honorary Secretary, District Health Office, Park Lane, Guisborough (Telephone: Guisborough 2521).

## **4. National Assistance Acts, 1948 and 1951 — Section 47.**

No procedure has been taken during the year.

# SKELTON & BROTTON URBAN DISTRICT COUNCIL

HEALTH DEPARTMENT,  
COUNCIL OFFICES,  
SKELTON-IN-CLEVELAND

*To the Chairman and Members of  
Skelton & Brotton Urban District Council.*

Mr. Chairman, Madam and Gentlemen,

I have pleasure in presenting my fourth Annual Report to the Council for the year 1961.

My four years here have been dominated by the words "pan closets". These unsightly, unhealthy boxes of sewage have been a blot on the district for many years and I am pleased to record that 1961 saw the bulk of them abolished.

A small slum clearance programme of a hundred houses is now being tackled but there are many hundreds of houses in the area which are unworthy of expensive improvements and repairs. I hope the Council will not regard the present programme as the end of the problem but as the beginning.

I wish to express my thanks to the Chairman and Members of the Council for their encouragement during the year, to all my colleagues for their co-operation, and to my clerk, Mrs. M. E. Simon.

Certain information in the report relating to Council housing, sewerage and improvement grants has been kindly provided by your Clerk and Surveyor.

I am,

Your obedient servant,

J. H. RHODES,

Public Health Inspector.

## SANITARY CIRCUMSTANCES OF THE DISTRICT

### WATER SUPPLY

With the exception of Charltons and some outlying farms and cottages water is supplied by the Tees Valley and Cleveland Water Board. Table 7 summarises the position as follows:

**TABLE 7**

Number of houses having mains supply in pipes inside	4173
Number of houses supplied by standpipes ....	40
Number of houses supplied by wells and springs ....	120

26 samples of water were taken during the year and submitted for bacteriological examination. Details are given in Table 8.

## SEWERAGE AND DRAINAGE

With the exception of outlying houses and farms and the village of Moorsholm, the district is served by public sewers discharging to the sea. Sewage disposal works owned by the Council receive the sewage from the village of Moorsholm. These works are inadequate and a scheme to provide a new sewage disposal works is under active consideration.

Some lengths of sewer damaged by mining subsidence need re-laying. Sewers laid and repaired during 1961 were:—

New sewers laid	....	....	6" — 200 yards
Old sewers re-laid	....	....	18" — 100 yards

## CLOSET CONVERSIONS

There were 91 pan-closets remaining in the built-up areas of the district at the end of the year. Most of these were in builders' hands, and the Council's programme for abolishing pan-closets will be virtually complete during 1962. Efforts are now being made to persuade owners of outlying houses and farms to instal water-closets where necessary.

## REFUSE COLLECTION AND DISPOSAL

A weekly collection of house and trade refuse is maintained throughout the district.

Refuse disposal was by controlled tipping at the Brotton Tip throughout the year.

The time lost during the year in sickness amounted to 1857 man/hours. For the financial year ended 31st March, 1962, the cost of the service was estimated at £7,510.

Other details relating to this service were:—

Total mileage of vehicles	....	....	14,691
Loads of refuse collected and tipped	....	....	3,805
Approximate weight of refuse	....	....	7,610
Trade refuse collected—Loads	....	....	14

## Part VIII of the Act

### Outwork (Sections 110 and 111)

No outworkers were reported in the Urban District during the year.

## HOUSING

Housing is, and will be for some considerable time, the main public health problem in the district. A large number of terrace houses, particularly in Boosbeck and Lingdale, are in poor condition and are not good enough to merit substantial improvements. The main effort is directed towards the patching-up of such properties for a further 10 or 15 years life, although we find it necessary to insist on new roofs being provided in many cases where the old slate roofs are unrepairable. However, no amount of repair can save houses which are worn out and some large-scale clearance schemes will need to be carried out within the next 10 to 20 years.

The Public Health Act, 1961 came into force on the 3rd October, 1961, and Section 26 of that Act enables local authorities to deal with urgent nuisances quickly; it provides a procedure which is a great improvement on the nuisance provisions of the Public Health Act, 1936, and we have made use of it on numerous occasions.

## FOOD

### General

There are 147 food premises in the area, and 83 of these are registered under the Food and Drugs Act, 1955. The premises may be classified as follows:—

Public Houses	....	....	20
Off-Licence Premises	....	....	7
Clubs (5 Workingmen's Clubs, 1 British Legion, 4 Institutes)	....	....	10

37 visits were made to various food premises.

### Milk

The Council is responsible for milk registrations as shown in Table 14, and for retail milk sampling.

**TABLE 14**

#### Milk Registrations

Number of Milk Distributors registered	12
Number of Dairy Premises registered	8

Samples of "Pasteurised" milks taken during the year were found to be satisfactory.

## MEAT AND OTHER FOODS

There are now four private slaughterhouses which are licensed by the Council, one slaughterhouse having closed during the year. Two slaughterhouses are being used for the slaughter of animals for sale outside the area in addition to local trade.

All the slaughterhouses were improved during the year, and at two premises substantial extensions were also made. These alterations were necessary in order to meet certain requirements of the Slaughterhouses (Hygiene) Regulations, 1958, and The Slaughterhouses (Prevention of Cruelty) Regulations, 1958, which applied to slaughterhouses in this area as from the 1st July, 1961.

The number of animals slaughtered in the area showed another large increase—9,345 as compared with 5,904 in 1960 and 3,559 in 1959. Eight hundred and ninety-nine visits were made for meat inspection purposes including regular Sunday and evening visits. In addition, 38 visits were made to slaughterhouses outside the area under an arrangement made with Saltburn and Marske U.D.C. regarding relief meat inspection work. There are 17 licensed slaughtermen in the district.

All food was voluntarily surrendered and, after being coloured with acid green dye, was mostly disposed of to the Council's refuse tip.

## **Adulteration**

Sampling of food, etc. for this purpose is undertaken by the County Weights and Measures Office and the District Inspector has kindly supplied the following information regarding samples taken under the Food and Drugs Act in the Urban District during 1961.

Milk Samples	....	32
Foods other than milk		24

All the samples taken were reported to be genuine and no proceedings were instituted.

## **CLEAN AIR**

No complaints of smoke nuisances were received during the year.

## **RODENT CONTROL**

The Rodent Operator appointed jointly by Loftus U.D.C. and Skelton and Brotton U.D.C. has continued his duties in the two areas, and the arrangement has worked satisfactorily. The Council's sewers were treated twice, and only light infestations were found in a few areas. The Council's tips were kept under constant supervision and minor infestations dealt with on several occasions.

"Warfarin" has been used to treat all the infestations during 1961. This poison gives very good results and the technique recommended by the Ministry of Agriculture, Fisheries and Food is followed.

Details of work done are set out below.

## **DISINFESTATIONS**

Five infestations were dealt with.

## **CARAVAN SITES**

There are eight licensed sites in the area, although four of these relate to individual caravans.

36 visits were made to sites during the year.

## **KNACKER'S YARD**

The Knacker's Yard at Charltons was again licensed and periodical visits were made.
